

#### Section 1. Identification

### **Product identifier**

Product Identity Other means of identification Tufo The Alex De Pase Series - Tufo

# Relevant identified uses of the substance or mixture and uses advised against

Pigment dispersion produced for exclusive use for permanent tattoos applications. The product should NOT be used in the eye.

#### Details of the supplier of the safety data sheet

Company Name	Intenze Product Inc.
	215, Rt 17
	South Rochelle Park , NJ 07662
Emergency	

<b>24 hour Emergency Telephone</b> 1 (800) 222-1222 American Association of Poison Control					
No.	Centers				
Customer Service:	201 342 4446				
Email Address info@Intenzeproducts.com					

#### Section 2. Hazard(s) identification

# Classification of the substance or mixture under OSHA's Hazard Communication Standard (1910.1200) revised 2024 (GHS revision 7)

Flammable Liquid 4;H227

Combustible Liquid.

Label elements

Warning

H227 Combustible liquid.

# [Prevention]:

P210 Keep away from heat, sparks, open flames, and other ignition sources - No smoking. P280 Wear protective gloves, eye protection, and face protection.

#### [Response]:

P370+378 In case of fire: Use extinguishing media listed in section 5 of SDS for extinction.

# [Storage]:

P403+235 Store in a well ventilated place. Keep cool.

#### [Disposal]:

P501 Dispose of contents or container in accordance with local and national regulations.

# Other hazards

This product contains no PBT/vPvB/vPvM chemicals. This product contains no endocrine disrupting chemicals.

Does not contain component(s) that meet a 'definition' of per & poly fluoroalkyl substance (PFAS) per US or Canadian regulations.

# Section 3. Composition/information on ingredients

This product contains the following substances that present a hazard within the meaning of the OSHA's Hazard Communication Standard (1910.1200) revised 2024 (GHS revision 7).

Ingredient/Chemical Designations	Weight %	GHS Classification	Notes
CI 21095 CAS Number: 5468-75-7 Synonyms: Pigment Yellow 14	10 - 30	Not Classified	No data available
CI 77491 CAS Number: 1309-37-1 Synonyms: Iron(III) oxide, Pigment Red 101	7 - 13	Not Classified	No data available
Cl 77891 CAS Number: 13463-67-7 Synonyms: C47051, C475001, Titanium dioxide	7 - 13	Not Classified	No data available
Witch Hazel Distillate CAS Number: 84696-19-5 Synonyms: Hamamelis virginiana, extract	3 - 7	Not Classified	No data

# Safety Data Sheet SDS Revision Date: 01/20/2025 Tufo Revision Number: 3

Ingredient/Chemical Designations	Weight %	GHS Classification	Notes
			available
Ammonium Acrylates Copolymer CAS Number: Proprietary Synonyms: Propenoic acid, 2-methyl-, polymer with butyl 2-pr	3 - 7	Not Classified	No data available
Glycerin CAS Number: 56-81-5 Synonyms: Glycerol	3 - 7	Not Classified	No data available
Propylene Glycol CAS Number: 57-55-6 Synonyms: 1,2-Propanediol	3 - 7	Not Classified	No data available
Isopropyl Alcohol CAS Number: 67-63-0 Synonyms: Propan-2-ol, isopropanol	1 - 5	Flammable Liquid, category 2;H225 Serious eye damage / eye irritation, category 2;H319 Specific target organ toxicity, Single exposure category 3;H336	No data available
Ethanol CAS Number: 64-17-5 Synonyms: Ethyl Alcohol	0.5 - 1.5	Flammable Liquid, category 2;H225 Serious eye damage / eye irritation, category 2;H319	No data available
Cl 21110 CAS Number: 3520-72-7 Synonyms: Pigment Orange 13	0.1 - 1	Not Classified	No data available
CI 74160 CAS Number: 147-14-8 Synonyms: Pigment Blue 15	0.1 - 1	Combustible Dust	No data available
2-Phenoxyethanol CAS Number: 122-99-6 Synonyms: Ethanol, 2-phenoxy-	0.1 - 1	Acute toxicity(oral), category 4;H302 Serious eye damage / eye irritation, category 2;H319 Specific target organ toxicity, Single exposure category 3;H335	No data available

The actual concentration or concentration range is withheld as a trade secret.

\*PBT/vPvB - PBT, vPvM or vPvB-substance.

The full texts of the phrases are shown in Section 16.

# Section 4. First aid measures

# Description of first aid measures

**General** In all cases of doubt, or when symptoms persist, seek medical attention.

Never give anything by mouth to an unconscious person.

- **Inhalation** Remove to fresh air, keep patient warm and at rest. If breathing is irregular or stopped, give artificial respiration. If unconscious, place in the recovery position and obtain immediate medical attention. Give nothing by mouth.
- **Eyes** Irrigate copiously with clean water for at least 15 minutes, holding the eyelids apart and seek medical attention.
- **Skin** Remove contaminated clothing. Wash skin thoroughly with soap and water or use a recognized skin cleanser.
- **Ingestion** If swallowed obtain immediate medical attention. Keep at rest. Do NOT induce vomiting.

# Most important symptoms and effects, both acute and delayed

**Overview** Treat symptomatically. Exposure to solvent vapor concentrations from the component solvents in excess of the stated occupational exposure limits may result in adverse health effects such as mucous membrane and respiratory system irritation and adverse effects on the kidneys, liver and central nervous system. Symptoms include headache, nausea, dizziness, fatigue, muscular weakness, drowsiness and in extreme cases, loss of consciousness.

Repeated or prolonged contact with the preparation may cause removal of natural fat from the skin resulting in dryness, irritation and possible non-allergic contact dermatitis. Solvents may also be absorbed through the skin. Splashes of liquid in the eyes may cause irritation and soreness with possible reversible damage. See section 2 for further details.

# Section 5. Fire-fighting measures

# Extinguishing media

Recommended extinguishing media; alcohol resistant foam, CO<sub>2</sub>, powder, water spray. Unsuitable extinguishing media: Do not use; water jet.

# Special hazards arising from the substance or mixture

Hazardous decomposition: No hazardous decomposition data available. Keep away from heat, sparks, open flames, and other ignition sources - No smoking.

# Advice for fire-fighters

As with all fires, wear positive pressure, self-contained breathing apparatus, (SCBA) with a full face piece and protective clothing. Persons without respiratory protection should leave area. Wear SCBA during clean-up immediately after fire. No smoking.

# ERG Guide No.

128

# Section 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

Put on appropriate personal protective equipment (see section 8). Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.

#### Environmental precautions

Do not allow spills to enter drains or waterways.

#### Methods and material for containment and cleaning up

Ventilate the area and avoid breathing vapors. Take the personal protective measures listed in section 8.

Contain and absorb spillage with non-combustible materials e.g. sand, earth, and vermiculite. Place in closed containers outside buildings and dispose of according to the Waste Regulations.

#### Section 7. Handling and storage

#### Precautions for safe handling

Handle containers carefully to prevent damage and spillage.

Store in accordance with the National Fire Protection Association's publication NFPA 30, Flammable and Combustible Liquids Code. 29 CFR 1910.106 applies to the handling, storage, and use of flammable and combustible liquids. See section 2 for further details. - [Prevention]:

#### Conditions for safe storage, including any incompatibilities

Store in a cool dry area, away from heat, sparks and open flame. Keep containers sealed when not in use.

Store out of direct sunlight. Incompatible materials: No available information See section 2 for further details. - [Storage]:

#### Specific end use(s)

No available information

#### Section 8. Exposure controls / personal protection

#### Exposure

Contains mineral oil. The exposure limits for oil mist are 5 mg/m<sup>3</sup>OSHA PEL and 5 mg/m<sup>3</sup>ACGIH.

Exposure controls	
Respiratory	If workers are exposed to concentrations above the exposure limit they must use the appropriate, certified respirators.
Eyes	Protective safety glasses recommended
Skin	Protective gloves recommended.
Engineering	Provide adequate ventilation. Where reasonably practicable this should be
Controls	achieved by the use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentrations of particulates and any vapor below occupational exposure limits suitable respiratory protection must be worn.
Other Work Practices	Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.

See section 2 for further details.

# Section 9. Physical and chemical properties

# Information on basic physical and chemical properties

Physical State	Liquid
Color	Characteristic
Odor	Characteristic
Melting point / freezing point	No available information

Evaporation rate (Ether = 1) Oxidising properties Explosive properties	No available information No available information No available information

#### **Other information**

VOC (Volatile Organic Compound) < 5 % ( w/w)

#### Section 10. Stability and reactivity

#### Reactivity

Hazardous Polymerization will not occur. **Chemical stability** Stable under normal circumstances. Possibility of hazardous reactions No available information **Conditions to avoid** Avoid high temperatures and contact with incompatible material **Incompatible materials** No available information Hazardous decomposition products No hazardous decomposition data available.

# Section 11. Toxicological information

#### Acute toxicity

Exposure to solvent vapor concentrations from the component solvents in excess of the stated occupational exposure limits may result in adverse health effects such as mucous membrane and respiratory system irritation and adverse effects on the kidneys, liver and central nervous system. Symptoms include headache, nausea, dizziness, fatigue, muscular weakness, drowsiness and in extreme cases, loss of consciousness.

Repeated or prolonged contact with the preparation may cause removal of natural fat from the skin resulting in dryness, irritation and possible non-allergic contact dermatitis. Solvents may also be absorbed through the skin. Splashes of liquid in the eyes may cause irritation and soreness with possible reversible damage.

Note: When no route specific LD50 data is available for an acute toxin, the converted acute toxicity point estimate was used in the calculation of the product's ATE (Acute Toxicity Estimate).
